

Jeff Seidl

Territory Manager
New Ulm

Jeff has more than 15 years of experience in the telecommunications industry and his clients appreciate the extensive knowledge he puts to work for them. During his tenure at Nuvera, he has been at the top of the leader board multiple times for sales produced and is a "Million Dollar" sales producer for the company. What that means is Jeff is great at getting to know his clients, understanding their unique needs, and determining how to best help them while keeping an eye on their bottom line.

Jeff has extensive skill in working with schools and their distinct set of network and computer needs, having set several up with total networking solutions. He has also deployed hosted and managed networking solutions: hosted server solutions, managed security solutions and Office 365 conversions. Additionally, Jeff is proficient in hosted and onsite phone system solutions.

Some of these networking projects require coordination of multiple locations and communities, with each location potentially requiring different services. Jeff specializes in the coordination and excellent communication it takes to make these projects successful.

As a Territory Manager, Jeff works with area companies to facilitate their communications needs including hosted services, business Internet, IT and network consulting, voice and more. He enjoys knowing that the projects he partners with his clients on provides the best solution possible for their requirements.
